

## Technical Specification – Used Hydraulic Press Brake

|                                  |                          |
|----------------------------------|--------------------------|
| Year of manufacture              | <b>1996</b>              |
| Serial number                    | <b>TBA</b>               |
| Tonnage                          | <b>110 Ton</b>           |
| Bending Length                   | <b>3100 mm</b>           |
| Distance Between Side Frames     | <b>2650 mm</b>           |
| Throat Depth                     | <b>400 mm</b>            |
| Daylight [ no tools in machine ] | <b>400 mm</b>            |
| Beam Stroke                      | <b>200 mm</b>            |
| Beam Approach Speed              | <b>120 mm</b>            |
| Beam Return Speed                | <b>12 mm / sec</b>       |
| <b>6 Motorised Axis are:-</b>    | <b>Y1+Y2+X1+X5+R1+Z1</b> |

|   |               |
|---|---------------|
| Lower Table Deflection Crowning System    | <b>NO</b>     |
| <b>6 axis CNC LVD MNC 95/C Controller</b> | <b>YES</b>    |
| Back Gauge Stroke                         | <b>700 mm</b> |
| Operator Infra-Red Guarding               | <b>YES</b>    |
| Side Fence Guarding                       | <b>YES</b>    |
| Rear Fence Guarding                       | <b>YES</b>    |

|  |                                       |
|--|---------------------------------------|
| Main Motor                                     | <b>TBA Kw</b>                         |
| Electrical Supply                              | <b>400v   50Hz   3Ph</b>              |
| Dimensions 'approx' without front support arms | <b>4150 [L] x 2000 [W] x 2900 [H]</b> |
| Machine weight 'approx'                        | <b>11,500 Kg</b>                      |

|                      |                   |
|----------------------|-------------------|
| Top & Bottom Tooling | <b>NO TOOLING</b> |
|----------------------|-------------------|
