# TS

✦ High-speed Tube Laser Cutting Machine ✦

## Company Culture

### MISSION

Intelligent manufacturing changes future

### VALUES

Customer-focused and employee-based

### VISION

Become a respectable enterprise in the global metal forming equipment field

## Company Profile

**13**

Global Branches

**100+**

Countries Covered

**4**

Manufacturing Bases

**30+**

Global Service Outlets

**8,000+**

Delivery Capability

**96,000m<sup>2</sup>**

Occupied Area

# TS 3000-6000W

## High-speed Tube Laser Cutting Machine

### Technical Parameters

Technical Parameter	TS65
Power	3000-6000W
Rotating Speed of Chucks	120r/min
Max. Linkage Speed	120m/min
Max. Linkage Acceleration	1.2G
X/Y-axis Positioning Accuracy	±0.03mm/m
X/Y-axis Repositioning Accuracy	±0.03mm
*Tailing Length	Tailings in Double-chuck Clamping Model ≥ 150mm
Cutting Capacity	Round tube Φ12 - Φ273mm Square tube □12*12 - □200*200mm Rectangular diagonal ≤ 273mm
The range of pipe material	1000-6500mm
Weight of Single Tube	200kg
Overall Dimensions(L*W*H) with Loading Racks	12500*4700*2600mm
Safety Certification	TUV CE
The range of pipe material	1000-6500mm

\* Machine appearance, technical parameters, function description, data comparison shown in this page are from HSG in-house laboratory. All testing results and experimental data shall be subject to real machine.

## High Speed and Intelligent for Better Processing

- High Speed and Precise  
High-speed data transmission without time delay and strong positional energy control.
- High rotational Speed and Air Velocity  
Bus system and servo motor reduce unproductive time.

## X9000 Bus-based Tube Cutting Control System

- Simple Interface  
Clear interface is convenient for users operating and shows cutting data in real time to save time and costs.
- Functional Integration Control  
A number of core functions are showed centrally on the interface to reduce operating steps and users can easily learn to operate.

## Tube Clamping Technology

- HSG digital chucks can detect claws clamping status and tube sizes to achieve self adaptive adjustment of clamping force.

## Powerful Functions Make You Never Spend Time Worrying

- Component Real-time Monitoring and Maintenance Alert  
All components are detected in real time to ensure the stable use and the system is equipped with maintenance alert for careful component management.

## Tube Splicing Technology

- The operating control offers 50+ kinds of tube splicing patterns, for convenience of subsequent welding, such as splicing of male and female head of square tube, 90° arc splicing, splicing of round tube tee, splicing of cut-through holes, 45° splicing of hexagon , splicing of angle iron and channel steel, etc.

## Cut Tubes at High Speed

- The chucks rotate and move at the speed of 120r/min and 120m/min respectively. With that, users will enjoy fast cutting, stable service and high production.

# Machine Foundation \*The marked size has about 10mm error

## Cutting Samples

## Cutting Capacity

The actual machines shall prevail and above data & pictures are only for reference.

## Intelligent Manufacturing Changes Future

**As a global enterprise, HSG sticks to providing professional and convenient service support to customers at home and board**

### Professional Training

Multiple technical training service and free operation training for customers and dealers in time

### Efficient Support

Humanistic service model, online services and 7\*24 hotline to offer solutions and assistance

### Optimized Transport

Multi-channel transport solutions and professional transport solution team will provide various transport cases for to satisfy the demand of customers and save transports fees

### Sufficient Accessories

Highly efficient accessories delivery service, multiple network inventory jointly responds to accessories demand to shorten customer's waiting times and accelerate production

### Careful Services

Domestic door-to-door service and free proofing, global 100+dealers provide efficient and convenient services
